Dear Librarian,

I would like to request that you consider adding Farah Oomerbhoy's books to your library's collection.

The Avalonia Chronicles is a series of enchanting YA fantasies. The first book, *The Last of the Firedrakes*, was originally published on Wattpad where it gained over two million reads and a Watty Award. Book one and two have gone on to win silver metals in IBPA's Benjamin Franklin Awards along with many other awards. All the books in the series are well reviewed!

The entire series is available through Ingram, Baker & Taylor, and Overdrive. Her books are some of my favorites and I would love to be able to check them out from the library. Below is a list of ISBNs for all of Farah's books in ebook, hardcover, and audio formats. I have placed checkmarks beside the titles/formats that interest me most.

Thank you!
